

Instantized & Micronized Amino Acids

Premium Ingredients offers a full line of amino acids, essential amino acids, as well as branch chain amino acids. We can customize to your specification if your application requires the material to be more instantly dissolvable.

Available Forms

- Instantized
- Micronized
- Blends (BCAA 2-1-1 Blend as well as others)

Advantages

- Provides maximum solubility & suspension in beverages
- Promotes easier mixing

Manufacturer's Certifications

All certificates and specs are available upon request.

Packaging and Storage

Different pack options available — inquire for details.
