

Omega-3 fatty acids are essential fatty acids that must be supplied by the diet. We offer both Ethyl Ester and Triglyceride refined natural fish oils and fish oil omega-3 concentrates. We also carry vegetarian alternatives to fish with Omega 3 from algae in DHA powder and oil formats. High EPA and/or High DHA variations are also available to suit product specifications as shown in the table below (full range available upon request).

Applications

- Nutraceutical Formulations
- Softgels
- Infant Formulas
- Dairy Products
- Beverages

Quality Control Focus

- Low Totox
- Low percentage of heavy metals & residues
- Odorless
- Cholesterol-free
- Without trans fats
- Low color
- High stability

Functional Benefits

- Joint health
- Cardiovascular health
- Infant and fetal development
- Cognitive and eye health
- Studies also show Omega-3 may reduce risk of certain cancers

Manufacturer's Certifications

- European Union hygiene approval for fish oil
- GMP
- HACCP
- Health certificate by government authorities
- Health Export License
- FDA Registration
- MSDS and specifications are available upon request
